TRIBES OF WARRIORS
Tribes of warriors carried their milk in goatskin bottles. As they roved the plains, heat soured the milk and the galloping of their horses churned it. Tribesmen and women alike relished this first crude form of butter-milk.

PROTEIN
The solid part of cottage cheese is chiefly high quality protein. It is one of the most inexpensive sources of this food nutrient. One-half cup of cottage cheese is about equal to one serving of milk, fish or poultry, two and one-fourth glasses of milk, three ounces of cheddar cheese, or three medium eggs.
